**How We Will Calculate Your Balance:** We use a method called "average daily balance (including new transactions)."

**How We Will Calculate Your Variable APRs:** Variable Rates are calculated by adding an index and a margin. The Index is the highest Prime Rate published in the "Money Rates" section of *The Wall Street Journal* on the 10<sup>th</sup> day of each month. If the 10<sup>th</sup> falls on a day *The Wall Street Journal* does not publish, we will identify the Prime Rate published on the last publishing day preceding the 10<sup>th</sup> day of the month. The margin is the percentage we add to the Index to calculate the APR. As of 02/09/2024, the index was 8.50%. After your account is opened, changes to the Index will cause a corresponding change to your variable rate.
